

A bank compliance team in Amman cut off my climate data pitch halfway through. They only wanted to know one thing.

Sustainability teams write the narrative. They do not sign the purchase order.

**Compliance teams own the quota.
Missing it triggers a regulatory penalty,
not a bad headline.**

Local banks buy climate data because the cost of non-compliance is priced and dated. Goodwill is not.

Even the advisory work linking this pipeline to Korean investors is pushed by a regulatory deadline, not an impact thesis.

**Stop reading ESG decks.

when.**
